- Emergency Contact Numbers
- Valid ID or other credentials

I agree that the information within this application is true to the best of my knowledge, and fully in agreement that this is a process of the intake. Wanting to identify my needs with all suitable housing options, and that this application is not an automatic entrance into the program itself.

Prior to admittance I understand there could be other options available if not accepted. If approved, I intend on bringing all forms of paperwork that relate to obtaining an ID, getting employment, fulfilling community supervision, and if possible reconnecting with family.

I recognize that Judy House Ministry is performing a service to provide me with hope to help myself, by providing solutions and not solving my problems.

Attitudes are the biggest part of the overall evaluation from the time this paper is handed in fully completed, and I that have considered that when going through the process, any listing of information is considered a release to those who will not use it to defraud or slander me, my character, or to be used as a court testimony.
