

What you will find when you are accepted at Judy House is a warm welcome to a positive atmosphere in which you can grow in all areas that pertain to your sustainability.

Being in a Christ-centered program, you should already assume that the communication centers around faith application derived from Biblical teaching.

We understand the pushback, but feel that for your reintegrating to be effective, the need to apply principles must come through consistent disciplines.

Moreover, we will intentionally teach on communication, expectations, and accountability. If any part of this does **not** sound appealing, we understand and are happy to find other programs you may deem appropriate.

TRANSFORMATIONAL HOUSING

Not everyone who arrives has it all together. But, when you bring your action plan (which is required) you can apply with case management on how best to proceed on accomplishing goals.

You will be expected to serve other men in the program with meal preparation, chores, cleanup, and often taking opportunity to lead studies.

Because the program is for you, however, the real value is that it's not really about you – but always about serving the next man.

Along this you will expect to find:

- Staff living alongside
- Access to wi-fi services
- Job help and assistance
- Money management
- Relational support
- Freshly prepared daily meals
- Engaging conversations
- Semi-private living areas
- Daily accountability groups
- Weekly Church attendance
